

See what our advertisers say about us ...

I advertise “online” but when I want to reach local customers, I use the “Shopping Guide” The “Guide” has been consistently bringing folks to my shop for over 40 years. Advertising there is an investment in our future. I could not afford not to be there.

I just wanted to say we are a small business starting to expand and I have found over 60% of our now clients found us by our ad in the Your Weekly Shopping Guide and most others by word of mouth. I would highly recommend using this paper... Its spread so far it really doesn't take long for responses.

Thank you in advance for your help with publicity. Our attendance has been steadily growing over the past few years, and I know it's due to good information being shared!

Rototiller is sold. Got 4 calls today. Worth putting the ad in.

Thanks.

The ad was very effective - we're still getting calls on it.
