A Letter from a Bridge Rally-er to the Old "Smokey" Trucker...

As you probably noticed, many of us on the Kezar Falls Bridge are of the older or oldest generation. Some have medical issues and are on the bridge between doctors' visits. Excessive vehicle smoke is not a prescription for better health.

The police patrol the bridge, sometimes in unmarked vehicles to observe any illegal behavior from anyone. No person rallying on the bridge wants to see anyone in a vehicle have their license suspended and vehicle impounded because of an offense relating to our rally. Really, we don't. If you have a different opinion, you can give us the cute little "one finger salute" that is sometime expressed. We're on the bridge for everyone's right to agree and disagree, yours and ours. Believe me, you and I don't want one of those grandmothers giving us a "good talking-to"!

From everyone on the bridge ... teachers, mechanics, librarians, veterans, medical people, workers and just plain people - to everyone, please be safe and respectful in your actions.

Thanks for listening.

What Our Customers Are Saying...

I highly recommend DIRFY Generators and Heat Pumps. If I had to rate them on a scale of 1 to 10, I would rate them a 10 without question. If I had to rate the individual phases (consultation thru installation), each phase would be a 10. The consultation was well explained with different options, which allowed me to easily make my choices. The installation was very organized and professional. The team was very polite, explained things to me, and was very neat. I didn't have to clean anything. And to the office staff, I can't say enough from the first phone call through the whole process.

I have discovered thru the process was the money that I would be adding to my monthly budget. We are retired and on a fixed income. We didn't have the funds available to proceed with this without their help. That helped us to be able install the heat pump system with no upfront money, which was a huge help to us. Not only that, but it also removed the need to pay for our propane to heat for our house. The cost difference was substantial. We actually save so much, that between the monthly finance payment, and the cost of the electric bill, we actually had more money for the month. We will be saving about \$110 a month (Over \$1300/yr). On a fixed income, that is substantial. It was almost like we were being paid \$1300/yr to put in the heat pumps. Again, a lot of money for fixed income.

And the best part, from the time we signed the contract to installation, less than a week. They had a good sized crew here.

We were so impressed, we decided to put in a Heat Pump hot water heater. Again, no money upfront. The savings after the finance payment and the power bill amounted to about \$97/mo (\$1164/yr). That was a total savings of about \$2500 a year for the heat pumps to heat and cool as well as the hot water heater. It was like getting paid \$2500 a year to install these. (p.s., I verified the figures from the Efficiency Maine website)

I am recommending to everyone I know to contact DIRFY Generators and Heat Pumps so that they can increase their spending money.

This company is awesome. No wonder they are number one in New England
