Information that Matters

An ongoing series to provide older residents of the Sacopee Valley with clear information about upcoming changes due to cuts in Federal funding.

According to the most current information, there will be no SNAP funds available in November. Good Shepherd Food Bank and other anti-hunger programs will be receiving some state funding to help fill the gap.

Randi's search for a living kidney donor...

Please consider a Gift of Life.

Dear Friends & Family,

Some of you may know that I have kidney disease. I am 74 years old, and over time, my kidney disease has gotten worse, causing my kidneys not to work well enough to keep me alive. My treatment options at this time are limited to dialysis or a kidney transplant. I have been on dialysis for some time now, 3 days a week for 4 hours each day, which is helping my kidneys do their job of removing wastes, toxins, and extra fluids. But the longer you are on dialysis the more your health deteriorates.

However, a living donor kidney transplant would offer me much more freedom and the ability to live a longer, healthier, and more meaningful life. A transplant would also give me more time to do the things I love most, such as spending time with my family and friends, my partner Nick, my pets, helping others, and being outdoors.

Finding a kidney is not easy. People who are on a wait list for a kidney from a deceased donor often have to wait 5-10 years and the kidney lasts on average 10-20 years. But the wait list for a living kidney donor is much shorter, sometimes even months, and the kidney typically lasts 20-30 years. It also has much better function.

In order to donate, living kidney donors get a careful and thorough evaluation with your own team of health professionals to see if you could be a match for me and to ensure that living donation is as safe as possible for you.

I want to share with you some basic information about kidney donation.

- 1) You only need one kidney to live a long, healthy life.
- 2) The surgery for a donor is done laparoscopically, meaning through tiny incisions, and the recuperation period is fairly quick, generally only a few of weeks.
- 3) The cost of an evaluation and surgery would be covered by my insurance, and there are programs like Donor Shield that can help with other charges.
- 4) Although my blood type is O+, you do not necessarily have to have the same blood or tissue type to be a match.
- 5) There is no age limit to be a donor. You just have to have a healthy kidney.

In order to express your interest in becoming my kidney donor, you can fill out the form at this link: www.mghlivingdonors.org. Upon submission, the Mass General Kidney Transplant Team (617/530/4156) will be in touch with you. To learn more about kidney donation, you can call Jullie Hogan, my Transplant Navigator at: 702/530/4156, or you can go to the National Kidney Foundation's website: www.kidney.org/livingdonation. There are also other websites that can help you learn about kidney disease and donation.

Thank you for taking the time to read my story.

A major way you can help is to share it with your friends and family and on social media.

With much appreciation,

Randi Gelfman

RADIUM GIRLS

D.W. Gregory

A fast moving play inspired by a true story from the 1920's, when radium was hailed as a miracle cure and luminous watch dials were a fashion craze; a dial painter has contracted a mysterious, devastating illness. Between her and justice stand her employer, her family and a willfully unseeing public.

Heat Pumps are very Energy Efficient!

In warm weather, a heat pump can move heat from inside the house to the outside and when it's cold outside a heat pump moves heat from outdoors to the inside of your house... **Financing Available starting at \$69 a month OAC**

What Our Customers Are Saying...

I highly recommend DIRFY Generators and Heat Pumps. If I had to rate them on a scale of 1 to 10, I would rate them a 10 without question. If I had to rate the individual phases (consultation thru installation), each phase would be a 10. The consultation was well explained with different options, which allowed me to easily make my choices. The installation was very organized and professional. The team was very polite, explained things to me, and was very neat. I didn't have to clean anything. And to the office staff, I can't say enough from the first phone call through the whole process.

I have discovered thru the process was the money that I would be adding to my monthly budget. We are retired and on a fixed income. We didn't have the funds available to proceed with this without their help. That helped us to be able install the heat pump system with no upfront money, which was a huge help to us. Not only that, but it also removed the need to pay for our propane to heat for our house. The cost difference was substantial. We actually save so much, that between the monthly finance payment, and the cost of the electric bill, we actually had more money for the month. We will be saving about \$110 a month (Over \$1300/yr). On a fixed income, that is substantial. It was almost like we were being paid \$1300/yr to put in the heat pumps. Again, a lot of money for fixed income.

And the best part, from the time we signed the contract to installation, less than a week. They had a good sized crew here.

We were so impressed, we decided to put in a Heat Pump hot water heater. Again, no money upfront. The savings after the finance payment and the power bill amounted to about \$97/mo (\$1164/yr). That was a total savings of about \$2500 a year for the heat pumps to heat and cool as well as the hot water heater. It was like getting paid \$2500 a year to install these. (p.s., I verified the figures from the Efficiency Maine website)

I am recommending to everyone I know to contact DIRFY Generators and Heat Pumps so that they can increase their spending money.

This company is awesome. No wonder they are number one in New England

Please help restore Cornish United Church of Christ steeple!

LAURA CARR is organizing this fundraiser.

Donation protected

PLEASE HELP US REPAIR THE STEEPLE at the United Church of Christ, 37 Main Street, Cornish, Maine

This beautiful old church has been a tourist attraction since 1843 because of its beautiful steeple...

There have been many repairs made over the years. In 2019 we had an evaluation done by an engineer and received a 37 page report explaining what needs to be done, a complete restoration. We are a small town church with a small congregation. We just need some help to see the project to completion and make it beautiful again.

We will keep the Faith and see what the Good Lord allows us to receive. Many thanks for any amount contributed! God Bless!

Vulcan

Facilities & Equipment Maintenance Technician

Tired of the long commute? Work local and join a reputable company in your own backyard! Vulcan Electric designs and manufactures precision heaters and temperature sensors used in semiconductors, aerospace, medical, and industrial applications worldwide — all built right here in Porter, Maine. We are seeking a Facility and Equipment Maintenance Technician to join our team. *Responsibilities include:*

- Perform planned, preventive, and corrective maintenance on production equipment
- Troubleshooting and repairing mechanical, electrical, hydraulic and pneumatic systems
- Providing hands-on support for general facility maintenance and improvement projects including plumbing and electrical work

Acceptable candidates for this position must have the skillsets to perform the listed responsibilities and work effectively in a manufacturing environment, with strong troubleshooting and problem-solving skills in a hands-on role. This position will include additional on-the-job training specific to Vulcan’s operation. This is a full day-time position with a 4-day work week, 10 hours per day, Monday through Thursday.

We offer a generous benefits plan including paid Holidays, Vacation/PTO time, Life Insurance, 401K and Medical/Dental.

Interested candidates may email their resume to: humanresources@vulcanelectric.com or complete application on-site.
