Town of Baldwin
NOTICE BALDWIN RESIDENTS

On **Saturday, December 6, 2025** at **9:00 a.m.**
the Baldwin Planning Board will hold a
pre-application site inspection
for a 3-dwelling unit subdivision (rental cabins) planned by Katy Palmatie
for a property on Saddleback Road, (Map 10, part of Lot 29e).

PLEASE NOTE: According to the Town of Baldwin Subdivision Ordinance, Article 5 – Pre-application Meeting, Sketch Plan and Site Inspection, Section 5.4 Contour Interval and On-site Inspection: “The Board shall not conduct on-site inspection when there is more than one foot of snow on the ground”. If there is more than one foot of snow an alternate date for the site inspection will be determined at the next regularly scheduled Planning Board meeting.

Those interested in attending can meet in a parking area at the end of a logging road near the intersection of Saddleback and Douglas Hill Roads. The entrance to the logging road will be marked and has a real estate “for sale” sign.

Vulcan
Facilities & Equipment Maintenance Technician

Tired of the long commute? Work local and join a reputable company in your own backyard! Vulcan Electric designs and manufactures precision heaters and temperature sensors used in semiconductors, aerospace, medical, and industrial applications worldwide — all built right here in Porter, Maine. We are seeking a Facility and Equipment Maintenance Technician to join our team. *Responsibilities include:*

- Perform planned, preventive, and corrective maintenance on production equipment
- Troubleshooting and repairing mechanical, electrical, hydraulic and pneumatic systems
- Providing hands-on support for general facility maintenance and improvement projects including plumbing and electrical work

Acceptable candidates for this position must have the skillsets to perform the listed responsibilities and work effectively in a manufacturing environment, with strong troubleshooting and problem-solving skills in a hands-on role. This position will include additional on-the-job training specific to Vulcan’s operation. This is a full day-time position with a 4-day work week, 10 hours per day, Monday through Thursday.

*We offer a generous benefits plan including paid Holidays,
Vacation/PTO time, Life Insurance, 401K and Medical/Dental.*

Interested candidates may email their resume to:
humanresources@vulcanelectric.com or complete application on-site.

Heat Pumps are very Energy Efficient!

In warm weather, a heat pump can move heat from inside the house to the outside and when it's cold outside a heat pump moves heat from outdoors to the inside of your house...

Financing Available starting at \$69 a month OAC

What Our Customers Are Saying...

I highly recommend DIRFY Generators and Heat Pumps. If I had to rate them on a scale of 1 to 10, I would rate them a 10 without question. If I had to rate the individual phases (consultation thru installation), each phase would be a 10. The consultation was well explained with different options, which allowed me to easily make my choices. The installation was very organized and professional. The team was very polite, explained things to me, and was very neat. I didn't have to clean anything. And to the office staff, I can't say enough from the first phone call through the whole process.

I have discovered thru the process was the money that I would be adding to my monthly budget. We are retired and on a fixed income. We didn't have the funds available to proceed with this without their help. That helped us to be able install the heat pump system with no upfront money, which was a huge help to us. Not only that, but it also removed the need to pay for our propane to heat for our house. The cost difference was substantial. We actually save so much, that between the monthly finance payment, and the cost of the electric bill, we actually had more money for the month. We will be saving about \$110 a month (Over \$1300/yr). On a fixed income, that is substantial. It was almost like we were being paid \$1300/yr to put in the heat pumps. Again, a lot of money for fixed income.

And the best part, from the time we signed the contract to installation, less than a week. They had a good sized crew here.

We were so impressed, we decided to put in a Heat Pump hot water heater. Again, no money upfront. The savings after the finance payment and the power bill amounted to about \$97/mo (\$1164/yr). That was a total savings of about \$2500 a year for the heat pumps to heat and cool as well as the hot water heater. It was like getting paid \$2500 a year to install these. (p.s., I verified the figures from the Efficiency Maine website)

I am recommending to everyone I know to contact DIRFY Generators and Heat Pumps so that they can increase their spending money.

This company is awesome. No wonder they are number one in New England
